

Future AP Statistics students must complete the “Get ready for AP® Statistics” on Khan Academy. You must complete a mastery level of at least 90% and a course challenge grade of 90% or higher. You can take the course challenge multiple times.

Mastery Level

The screenshot displays the course interface for 'Get ready for AP® Statistics'. At the top, the course title is shown in a blue header. Below this, the mastery level is indicated as 3,280 / 3,500 (94%), with the percentage circled in red. A 'Course summary' section lists three preparatory topics with progress bars. The 'Course challenge' section shows a score of 97% completed 5 days ago, with a congratulatory message and a 'Take Course challenge again' button. A 'Course Challenge' label with an arrow points to the challenge section. A 'Mastery Level' label with an arrow points to the 94% mastery score.
