

- EMERGENCY DRILL PROTOCOLS

- The Marjory Stoneman Douglas High School Public Safety Act requires school districts to conduct emergency drills for active shooter and hostage situations in accordance with developmentally appropriate and age-appropriate procedures at least as often as other drills in all K-12 educational facilities, including Charter Schools. Therefore, apart from the one additional drill at the beginning of the school year, emergency drills will be scheduled to occur at a rate of one drill per month.

- If you have any questions, please call the school.
